China came alone

The key changes between the monetary policy statement and previous ones

**INTEREST RATES**

- **Softening Tone**

The Index components of the Gross Domestic Product (GDP) and the inflation rate are currently at a relaxation level. The Reserve Bank of Australia (RBA) has reduced the cash rate to 0.10% to support the economy and to ensure price stability. In addition, the RBA has announced that it will continue to monitor the impact of the lower cash rate on the economy and will consider further rate cuts if necessary.

**CHARTS IN BLOOM**

- **Expected Inflation**
  - High
  - Medium
  - Low

**NOTES**

- The RBA has highlighted the importance of continued support for the economy and has emphasized the need for further stimulus measures.
- The bank is also paying close attention to the foreign exchange market and is ready to intervene if necessary.

**HIGHLIGHTS**

- The RBA has emphasized the importance of continued support for the economy and has highlighted the need for further stimulus measures.
- The bank is also paying close attention to the foreign exchange market and is ready to intervene if necessary.

**ASSETS UNDERSTATED**

Sydney's deelining

**RBA BACK TO NEUTRAL**

The Reserve Bank of Australia has indicated that it is ready to adjust interest rates if necessary, and that it will continue to monitor the economy closely.
